VISION

To be the leading Provider of Choice in the Generation Segment for the Caribbean, with the largest service fleet, providing effective and reliable power generation solutions, both on Land and Marine.

MISSION

Help companies and businesses facing inefficient power generation situations.

Respond with immediacy, commitment, and responsibility in the service to each of our clients.

Effectively Continue solving complex service and installation challenges.

Provide attention to emergencies from our clients, 24/7, and solutions, with the best team and equipment.

Keep our outstanding technical staff with the best up-to-date training.

ANTILLES POWER Depot has been in the power generating business for more than 20 years (always with high quality, fully compliant equipment) with solutions to protect inventory, resources and the business continuity of companies and industries.

We are an efficient, customer service oriented and environmentally responsible company dedicated to sale and service of power equipment, with the largest generator and marine propulsion service fleet in the Caribbean, On- Highway and Off-Highway applications.

To help our clients with their needs, we have two stores in Puerto Rico:

- Our Store for Engine and Power Generator spare parts in Carolina.
- Antilles Power Marine Center in Puerto del Rey Marina in Fajardo.

Our headquarters are in Puerto Rico (Carolina), with additional offices and/or locations for service in:

- Dominican Republic
- St. Thomas
- St. Croix
- St. Maarten

RECOGNIZED SUPPLIER OF THE YEAR

by San Juan Marriott Resort and Stellaris Casino; and one of the Top 200 locally owned companies in Puerto Rico.
